

Data Flow Diagram

Date	1 July 2026
Team ID	SWTID-2026-1614
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	2 Marks

Data Flow Diagram

Create a Data Flow Diagram (DFD) to show how data moves through your system - between external entities, processes, and data stores. Use the symbol legend below as a guide.

DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	External Entity	A person, organization, or system outside the project that sends or receives data (e.g., Policy Researcher, Government Stakeholder).
Rectangle with numbered header	Process	An activity that transforms incoming data into outgoing data (e.g., Validate & Pre-fill Indicators, Predict HDI Score).
Rectangle (solid fill, no number)	Data Store	A place where data is held for later use (e.g., Historical Indicators DB, Simulation Log DB).
Labeled arrow	Data Flow	The movement of data between entities, processes, and data stores, labeled with what data is being passed.

HDI Predictor – Level 1 Data Flow Diagram

The diagram below shows how country indicators flow through the system to produce a predicted HDI score and developmental tier for the researcher, and how aggregated simulation reports support government/stakeholder decisions.
