

Project Initialization and Planning Phase

Date	30 June 2026
Team ID	SWTID-2026-1614
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel PS
PS-1	A policy researcher or socio-economic development analyst.	Predict future national Human Development Index (HDI) scores and developmental tiers based on target metrics.	I cannot test real-time socio-economic indicator adjustments without writing custom regression scripts.	I only have static spreadsheet files and raw publications from global datasets, but lack machine learning expertise.	Frustrated by slow analysis workflows and anxious about making inaccurate projections for policy planning.
