

Team Involvement in Demonstration

Date	05 July 2026
Team ID	SWTID-2026-1614
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	1 Mark

Team Involvement in Demonstration:

This document records the active participation and roles of each team member during the project demonstration. It ensures that every member contributes meaningfully to the presentation and that responsibilities are distributed fairly and clearly.

S. No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation (Active / Passive)
1		Team Lead & ML Developer	Problem Statement & Model Overview	Led the team, defined the project scope, and explained the HDI prediction model, training dataset, and Linear Regression algorithm. Programmed the Flask API server, loading	Active
2		Backend Developer	Flask API & Prediction Logic	model weights, querying pre-fill country baselines, and serving calculations. Set up the continuous deployment pipeline	Active
3		Deployment Engineer	Deployment & Hosting Walkthrough	linking the hosting service directly to the GitHub source repository. Coded the glassmorphism input dashboard,	Active
4		Frontend Developer	UI Walkthrough & Live Demo	autocomplete search box, and ran the live scenario calculations during the presentation. Tested prediction accuracy across sample	Active
5		Testing & Documentation Lead	Testing & Results Analysis	inputs and prepared supporting documentation for the demo.	Active

Team Coordination Notes:

Aspect	Details
Team Leader / Coordinator	V.HarishKumar
Overall Team Coordination Rating (1-5)	5
Any issues during demo	A brief delay occurred during the first live prediction query due to the free-tier cloud container reinitializing (cold start) while loading model weights.
How issues were resolved	The team pre-warmed the hosted URL directly in the browser tab shortly before the presentation started, ensuring subsequent live demo queries loaded instantly.
